

OUR
DUST COLLECTOR
BAGS

Advanced Industrial Dust Filtration Solutions

High Efficiency • Durable Performance • Cleaner Air

Puritec Dust Collector Bags are engineered to deliver superior dust filtration performance in demanding industrial environments. Designed for maximum dust capture efficiency and long operational life, our bags help maintain cleaner air, protect equipment, and ensure compliance with environmental standards.

◆ What Are Dust Collector Bags?

Dust Collector Bags are high-performance filter bags used in dust collection systems to capture airborne particles, powders, and industrial dust generated during manufacturing processes.

They are essential for:

- ✓ Maintaining clean and safe working environments
- ✓ Protecting machinery from dust damage
- ✓ Improving product quality
- ✓ Meeting pollution control norms

◆ Key Features & Benefits

✓ High Filtration Efficiency

Effectively captures fine dust particles to maintain clean exhaust air.

✓ Durable & Abrasion Resistant

Manufactured from strong industrial-grade fabrics for long service life.

✓ Heat & Chemical Resistance

Suitable for high-temperature and chemically active environments.

✓ Low Pressure Drop

Ensures smooth airflow and energy-efficient system performance.

◆ Available Materials

Puritec Dust Collector Bags are available in:

- Polyester
- Polypropylene
- Nomex (High Temperature)
- Ryton (Chemical Resistant)
- PTFE Coated Fabric
- Antistatic Fabrics

Micron Range: Customizable as per application requirement.

◆ Applications

Our Dust Collector Bags are widely used in:

- ✓ Cement Plants
- ✓ Pharmaceutical Industries
- ✓ Chemical Processing Units

- ✓ Food Processing Industries
- ✓ Steel & Metal Industries
- ✓ Wood & Furniture Manufacturing
- ✓ Power Plants

◆ Why Choose Puritec Dust Collector Bags?

- ✓ Superior Dust Retention Performance
- ✓ High Air Permeability
- ✓ Extended Operational Life
- ✓ Custom Manufacturing Support
- ✓ Competitive Pricing & Timely Supply
