High Performance Filtration Solutions for Industrial Applications

Efficient Filtration • Superior Quality
• Long Service Life

Puritec Liquid Filter Bags are designed to deliver reliable and high-efficiency filtration for a wide range of industrial liquid processing applications. Manufactured using premium filter media, our filter bags ensure excellent particle retention, high flow rates, and extended durability.

What Are Liquid Filter Bags?

Liquid Filter Bags are used in bag filter housings to remove solid particles and impurities from liquids. They provide cost-effective and efficient filtration while maintaining optimal flow performance.

They are ideal for processes requiring:

- ✓ Consistent liquid clarity
- ✓ High dirt holding capacity
- ✓ Easy replacement & maintenance
- ✓ Reliable filtration performance

Key Features & Benefits

✓ **High Filtration Efficiency**

Available in various micron ratings to capture fine and coarse particles effectively.

✓ **Strong & Durable Construction**

Made from high-quality fabrics for long operational life and resistance to pressure.

✓ **Excellent Flow Rate**

Optimized design ensures minimal pressure drop and maximum throughput.

✓ Wide Chemical Compatibility

Suitable for use with water, chemicals, oils, solvents, and more.

✓ Easy Installation & Replacement

Compatible with standard bag filter housings for quick and hassle-free maintenance.
